

## HNDIT 2402 – Free and Open Source Software Solutions

### Week 5 Lab activity

1. Create the following folder structure. Include a folder for your ATI if not exist in the given structure ( use the given format )

hint:

to create a folder:- **mkdir folderName**

to create sub folders:-**mkdir -p folderName/{sub\_folder1,sub\_folder2}**

to view folder structure:- **ls folderName/**

2. Copy the same folder structure in ati-Dehiwala into your ATI folder
3. Add/remove folders so as to match with the courses you have in your ATI
4. Copy the whole folder structure and rename to create two folder structures named as ATI\_2019 and ATI\_2020
5. Create a file named info.txt inside the IT folder of your ATI and write a brief description about HNDIT program. (use Vi editor)
